Sevement of Prices Confused and Uncertain.

VOLUME OF TRADING SMALLER

Which Are Unusually Heavy This Year, Was Partial Cause of the Flurry Bank Irregular

(By Associated Press.) NEW YORK, May 1.—The volume of trading fell off again in to-day's stock

pies Gas were him to stone. The grain-cerrying railroads started to advance on the over-night reports of showers in Kansas and the Northwest, but the ad-vance was checked by the failure of the grain market to reflect any benefit to the crops. There was large and concentrated buying of St. Paul, which seemed to be due to the advance in the dividend rate on Northern Pacific from a four per cent, to a six per cent, basis. Another notable center of strength was in the Southern trunk lines, which had no other explana-tion than the reports of very large north and south traffic. The movement affect-ed Louisville and Nashville, Illine's Cen-tral, Chicago, Indianapolis and Louisville and to a less extent Southern Railway. The fixing of the May, semi-annual divi-dend rate on Pennsylvania at 3 per cent-induced large buying of that stock and

PEANUT MARKETS. NORFOLK, VA., May 1.—PEANUTS—Quiet Virginians—Avtice at 314°. for best stock Fancy, 3634°c.; strictly prime, 3c.; prime, 24°c. PETERSBURG, VA., May 1.—PEANUTS—Market quiet.

COTTON MARKETS. NEW YORK. May 1.—The cotton market opened quiet with prices 3 points lower to 1 point higher, this being quite contrary to the cable news which reflected a remarkably firm undertons in Liverpeol. The English market had been counted on to come about unchanged, but at the time of the opening here was up 1622, points. Nevertheless, there were very few buying orders in evidence here and bear leaders seemed to be in an aggressive mood. Soon after the call commission houses began to sell "stop-orders" cotton, from which the bears took their cue to pound the summer months. From 9.50 July was seen down to 9.40, and after a slight rally broke to 9.37. The Liverpool market was unable to stand the weakness here and soon gave way heavily. New Orleans, too, was very irregular, and finally broke some 10 points under active selling for both accounts. Room sentiment here was bearish under the main out 101 points under active selling for both accounts. Room sentiment beyond August, owing to the fear of possible unfavorable weather changes or broadcuing speculation in October, December and January, which is now due. After a slight rally the market weakned again in the afternoon, and near the close broke to 9.35 for July under brisk selling for both accounts. Port receipts were over 11,000 hales, but proved to be less than total clearances. The market at the close was easy and net 5@19 points lower. The present crop months led the drop, with the May option the only one showing the extreme loss. Union Factors 118 kg

MOVE UPWARD

Pennsylvania and Louisville Enjoy a Big Rise.

MONEY RATE MUCH HIGHER

The Rate Went Up to Eleven Per Cent International Power Does Stunts. Market Sells Off Towards the Close-

The stock market recovered somewhat yesterday from the set-back which it had the day before, and several standard stocks were dinusually strong. Pennsylvania was one of the leaders and sold up to 155, the highest price for many a day; 5t. Paul went up to 175; New York Central to 161%, while Louisville and Nashville on a rumor that it would be placed on a 6 per cent. basis, jumped up to 133%. Illinois Central was also very strong and sold at 157%, a record price. The Industrials were not so active. Locomotive did a little better and the preferred went up to 93%; Colorado Fuel was weak and active, seiling from 108 to 105½; International Power bobbed up and down in a most remarkable sort of fashion; it opened at 125, sold to 110, then back to 125, then down to 102, then up to 108, then back to 102, and closed at 104 bid and 110 asked.

There seems to be an impression that this company was in some way connected with the American Locomotive Company. Those who are in a position to know say that such an impression is entirely erroneous. It probably grows out of the fact that the same brokers who put through the Locomotive deal also put through the International Power deal. Locomotive preferred is a good stock and will no doubt continue to pay its dividend. The common stock is entirely speculative, and it is not believed that it will pay a dividend anywhere in the near future.

The MONEY RATE UP.

In the afternoon the money rate jumped in the apprent the laternoon the money rate jumped in the second the second of the process.

THE MONEY RATE UP.

THE MONEY RATE UP.

In the afternoon the money rate jumped up from 6 per cent. to 11 per cent. This caused traders to hesitate and prices went off, causing a somewhat irregular closing, but several stocks were higher for the day.

TRACTION STOCK.

It was learned here yesterday that 55 was bid in both Baltimore and Richmond for the stock of the Richmond Traction Company of this city. This stock was sold in Baltimore during the present week as high as 54.

company of this city. This stock was sold in Baltimore during the present week as high as 54.

A RAIROAD RUMOR.

The Baltimore American publishes the following special from Savannah: "Information was received in the city to-day that the presidency of the Atlantic Coast Line will be tendered to R. G. Erwin as soon as the consolidation of the Atlantic Coast Line and the Plant system has been completed. It is not known whether Mr. Erwin will accept the place, though it is known that the Coast Line is anxious for him to do so and will use every effort to get him.

"Henry Walters, chief owner of the present Coast Line Company, retired from the presidency of that corporation some years ago and has since devoted his time to travel and looking after his other interests."

Preparations for May Disbursements

NEW TORK. May 1.—The volume of trading fell off again in to-day's stock market and the movement of prices indicated much uncertainty and contusion of sentiment. The furry in call money to 16 per cent. would go far to explain the action of the market, but there were some supplementary causes which were confusions and no doubt had something to do with the rise in the money rate. The preparation for the May disbursements, which are unusually heavy this year, was, of course, the primary cause of the constriction of the money supply. But such a demonstration of instability as that in International Power and a number of other Industrials, whose affairs are more or less shrouded in mystery, yesterday and to-day, had the inevitable effect of inducing closer scrutiny of the character of collateral offered for loans. The May disbursements for dividends and interest are estimated at over \$58,00,000, including the heavy payments for United States Steel dividends. The sub-Treasury operations this week have taken from the banks over \$2,500,000, largely due to deposits to retire bank circulation. There has been some demand from the interior, as shown by the drop in New York exchange at Chicago to a discount. It is not strange, therefore, in view of the limited surplus of the banks, that monthly requirements should have sent the money rate up to 10 per cent. to-day. The Government interest due to-day, however, amounts to about \$1,500,000, and additional deposits of Government funds to the extent of several million dollars are expected to be made by the Secretary of the Treasury. The rise in the money market has had the effect also of easing the foreign exchange market, carrying it away from the gold export point. The International Power episode caused a decidedly feverish feeling among the obscure class of Industrials. The higher grade stocks of this class were less affected, although the United Steel securities showed some depression, partly due to some public discussion of a rather biting character of the finenening of the c

ne fixing of the May semi-annual divimid rate on Pennsylvania at 3 per cent,
duced large buying of that stock and
shed the other trunk lines. For two
sars past the May dividend on Pennsylmia has been 2½ per cent, while in
ovember there was a declaration of 2½
or cent, regular and 1 per cent, extrane rate of disbursement is unchanged,
erefore, by to-day's rate; but the fact
at it is called regular is accepted as
declaration of confidence on the part
the future direction. The undecided
sestion of the anthracite miners' terms
as a weight on that portion of the mart. The close was irregular.
The bond market was irregular in symthy with stocks. Total sales, par
lue, \$2,430,000. United States new 4's
clined 4 per cent, on the last call.
The total sales of stocks for the day
are \$23,500 shares.
